

Main chemicals/consumables, which should be always available in the lab

Table 1: Main chemicals/consumables in the NanoLab.

Chemicals	Consumables
Acetone	Laboratory coats in S, M, and L
Methanol	Gloves in S, M, and L
Isopropanol	Pipettes (glass or non-reusable plastic)
NMP	Hair and beard cover
Sulfuric acid	Shoe cover
Hydrogen peroxide	Cleanroom tissue (2 sizes)
Chrome etchant	Sticky mats
Alumina etchant	
Gold etchant	
Buffered HF	
KOH and NaOH pellets	
Ammonia hydroxide	
Resists and Developers
